SECURITY PROPOSAL

Dedicated Desk

High-level synchronization between remote monitoring and onsite physical security.

- 24/7 Dedicated Operator
- OV Control Room Integration
- LGCID Onsite Team Sync

LGCID & OV INTEGRATION

Community Monitoring

Strategic separation of duties to maintain 100% vigilance across all sectors.

- AI/Analytics Specialized Team
- Alarms vs. Live View Split
- Strategic Patrol Coordination

REAL-TIME ANALYTICS FEED

Reliever & Overflow

Ensuring continuous coverage with no single point of failure during peak times.

- Shared Coverage Model
- Byers On-site Relief
- Seamless Overflow Handling

AUTO-FAILOVER ACTIVE

TECHNOLOGY STACK

Core Software Suite

Blue Iris VMS
MANAGEMENT ENGINE

Immix
CENTRAL MONITORING STATION

Behavioural Analytics

AI ENHANCEMENT

Infrastructure Excellence

POWER & REDUNDANCY

Power Systems

- ◆ Battery Backup (UPS)
- ◆ 2x On-site Generators

Connectivity

- ◆ Tier-1 Fibre Optic
- ◆ High-Speed Wireless
- ◆ LTE Failover Integration

COMMUNICATIONS

Unified Comms Stack

High-availability hybrid communication infrastructure ensuring 99.99% uptime for mission-critical responses.

VoIP Protocol
PRIMARY LINE

Dedicated Radio
FIELD FREQUENCY

WhatsApp
INSTANT MESSAGING

Cell Phone
DIRECT ACCESS

OPERATOR TRAINING

Human Infrastructure

- 1 RIGOROUS SELECTION**
Psychometric and technical screening process for all elite candidates.
- 2 4-WEEK PROGRAMME**
Intensive internal training covering SOPs and crisis response.
- 3 TRAINING CENTRE**
Simulation-based learning in our specialized facility.
- 4 ASSESSMENTS**
Strict certification gates before operational deployment.

OPERATIONAL WORKFLOW

MONITORING **PROCESS**

Our 4-step interactive cycle ensures immediate Threat Detection through AI-driven precision.

DETECT

ai driven analytics and skilled CCTV operators detects potential threat

ASSESS

Professional operator views live feed to verify the incident.

INTERVENE

Direct audio announcement (Voice Down) to deter intruders.

RESOLVE

Notify Armed Response and provide live updates of the person/s of interest whereabouts .

**ZERO-LATENCY STRATEGIC
MONITORING OPERATIONS**

Value-Added Services

OPERATIONAL

System Health

Continuous technical oversight to ensure high availability of your security infrastructure

Daily Camera Checks

Visual verification of all feed angles and clarity.

Auto-Connection Tests (5min)

Automated pings to ensure network stability.

GOVERNANCE

Accountability

Rigorous data management and logging protocols for compliance and incident investigation.

Comprehensive Audit Trail

Detailed logs of all access and system interactions.

30-Day Off-site Storage

Secure cloud backup of critical event footage.

RESILIENCE

Contingency

Robust planning for external disruptions to ensure uninterrupted business.

Labour Action Protocols

Pre-defined response plans for staff shortages.

Staff Housing & Transport Plan

Logistics for essential staff during local crises.

Commercials

COST BREAKDOWN

SERVICE BREAKDOWN	COST (ZAR) EX VAT
Upfront Hardware & Connection	INCLUDED
Dedicated Desk (3 Ops + Relief)	R 65,000.00 PM
Alarm Monitoring (4,000 alarms)	R 15,500.00 PM
Analytics (20 licenses)	R 2,200.00 PM
Software Licenses	R 2,200.00 PM
TOTAL MONTHLY COST	R 84,900.00

SECURE THE FUTURE

A reliable partnership committed to keeping the Lower Gardens community safe through proactive monitoring and dedicated support.

"COMMITTED TO PARTNERING WITH LGCID TO PROVIDE UNWAVERING PROTECTION AND PEACE OF MIND FOR THE LOWER GARDENS COMMUNITY."

ALWAYS WATCHING, ALWAYS READY

Our 24/7 dedicated team ensures constant, reliable oversight of the Lower Gardens community, so you never have to worry about gaps in your security.

BUILT FOR RESILIENCE

With comprehensive power backups and network failovers in place, your security stays online without interruption, even during unexpected outages.

ADAPTABLE TO YOUR NEEDS

As the LGCID grows and evolves, our flexible monitoring systems can easily expand alongside you, adding new cameras or features seamlessly.

EXPERT HUMAN OVERSIGHT

Technology is only as good as the people behind it. Our rigorously trained operators provide the critical human judgment needed to turn AI alerts into effective action.
