

LGCID MONITORING PROPOSAL

High-Contrast Security Infrastructure & CCTV
Strategic Overview

PREPARED FOR

Lower Gardens CID

CORE STATISTICS

INFRASTRUCTURE

500+

SITES UNDER MANAGEMENT

DEPLOYMENT

8200+

ACTIVE CAMERAS

OPERATIONS

15+

CERTIFIED OPERATORS

COMPANY FOUNDATION

PSIRA REGISTERED

Absolute compliance with the Private Security Industry Regulatory Authority standards.

24-HR CONTROL ROOM

High-intensity centralized monitoring hub active 365 days a year without fail.

STRATEGIC REFERENCES

LLANDUDNO SRA

CRITICAL PERIMETER PROTECTION & GRID SURVEILLANCE

AI-ENHANCED THREAT DETECTION & RESPONSE

SECURITY PROPOSAL

Dedicated Desk

High-level synchronization between remote monitoring and onsite physical security.

- 24/7 Dedicated Operator
- OV Control Room Integration
- LGCID Onsite Team Sync

ASSIGNED TEAM LEAD

Community Monitoring

Strategic separation of duties to maintain 100% vigilance across all sectors.

- AI/Analytics Specialized Team
- Alarms vs. Live View Split
- Strategic Patrol Coordination

REAL-TIME ANALYTICS FEED

Reliever & Overflow

Ensuring continuous coverage with no single point of failure during peak times.

- Shared Coverage Model
- Byers On-site Relief
- Seamless Overflow Handling

AUTO-FAILOVER ACTIVE

TECHNOLOGY STACK

Core Software Suite

Blue Iris VMS
MANAGEMENT ENGINE

Behavioural Analytics
CROWD & LOITERING

Secure Archiving
CLOUD REDUNDANCY

Infrastructure Excellence

POWER & REDUNDANCY

Power Systems

- ◆ Battery Backup (UPS)
- ◆ 2x On-site Generators

Connectivity

- ◆ Tier-1 Fibre Optic
- ◆ High-Speed Wireless
- ◆ LTE Failover Integration

COMMUNICATIONS

Unified Comms Stack

High-availability hybrid communication infrastructure ensuring 99.99% uptime for mission-critical responses.

VoIP Protocol
PRIMARY LINE

Dedicated Radio
FIELD FREQUENCY

OPERATOR TRAINING

Human Infrastructure

- 1 RIGOROUS SELECTION**
Psychometric and technical screening process for all elite candidates.
- 2 4-WEEK PROGRAMME**
Intensive internal training covering SOPs and crisis response.
- 3 TRAINING CENTRE**
Simulation-based learning in our specialized facility.
- 4 ASSESSMENTS**
Strict certification gates before operational deployment.

OPERATIONAL WORKFLOW

MONITORING **PROCESS**

High-contrast tactical monitoring. Our 4-step interactive cycle ensures immediate threat neutralization through AI-driven precision.

DETECT

AI/Analytics detects potential threat via perimeter algorithms.

ASSESS

Professional operator views live feed to verify the incident.

INTERVENE

Direct audio announcement (Voice Down) to deter intruders.

RESOLVE

Notify Armed Response and provide live updates of the person/s of interest whereabouts .

ELITE RESPONSE UNIT

ZERO-LATENCY STRATEGIC MONITORING OPERATIONS

Value-Added Services

OPERATIONAL

System Health

Continuous technical oversight to ensure zero-downtime performance of your security infrastructure.

Daily Camera Checks

Visual verification of all feed angles and clarity.

Auto-Connection Tests (5min)

Automated pings to ensure network stability.

GOVERNANCE

Accountability

Rigorous data management and logging protocols for compliance and incident investigation.

Comprehensive Audit Trail

Detailed logs of all access and system interactions.

30-Day Off-site Storage

Secure cloud backup of critical event footage.

RESILIENCE

Contingency

Robust planning for external disruptions to ensure uninterrupted business continuity.

Labour Action Protocols

Pre-defined response plans for staff shortages.

Staff Housing & Transport Plan

Logistics for essential staff during local crises.

GLOBAL SECURITY STANDARDS COMPLIANT

Monitoring Commercials

SERVICE BREAKDOWN	INVESTMENT (ZAR) EX-VAT
 Upfront Hardware & Connection	INCLUDED
 Dedicated Desk (3 Ops + Relief)	R 65,000 PM
 Alarm Monitoring (4000 alarms)	R 15,500 PM
 Analytics (20 cams)	R 2,200 PM
 Software Licenses	R 2,200 PM
TOTAL MONTHLY INVESTMENT	NET: R84,900 PM EX-VAT

STRATEGIC CONCLUSION

A high-contrast architectural framework designed for *absolute vigilance* and operational continuity.

OPERATIONAL CERTAINTY

Engineered reliability ensuring continuous oversight for mission-critical assets.

ZERO FAILURE NODES

Multi-layered redundancy built into every core intersection of the network.

SCALABLE GROWTH

Modular design that evolves with your footprint without structural re-engineering.

MASTERCLASS INSIGHT

Deep-dive expertise providing strategic insights that transcend basic protocols.

EXECUTIVE COMMITMENT

"Unmatched vigilance and structural integrity for OmniVision Security."
